## SOMETHING ABOUT ME

This energetic DJ is revolutionizing the mainstream music scene in Spain. André Vázquez had a dream and began working as if there were no tomorrow. He travels the world performing as DJ and making the crowd enjoy his sets. His effrontery on the stage and his public interaction have made his sessions an **unforgettable experience**.

For the last years, he has been traveling through all **Europe, America and Asia**, participating in different festivals and clubs. This artist combines several musical styles with his animation by the microphone. He quickly gained the public admiration with his fresh, energetic and exclusive show.

Groove Amigos is also the promoter of some of the main electronic music brands and festivals in Spain. Highlighting among others: **H2O Festival, Midnight Paint Party or Groovy Boat**. This last festival takes place on a boat and has been carried out for the last 5 years in Miami during the **Miami Music Week**.

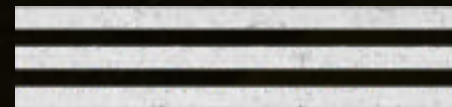

With no doubt, he is in his best professional moment. Last year, he did more than 120 performances, including 2 big tours of 22 shows through Asia and South America. In constant growth, André defines himself as nonconformist and is set by the music scene as the Spanish Dj with the greatest potential for this 2021.
